

# appWASH

Taking care of dirty laundry is definitely not the No. 1 thing to do during studies. And even an app can't do that job for you.

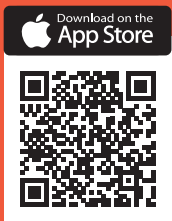

But we as the founders of appWash are convinced that our solution will make it at least more convenient for you. No more wasting time hunting for small change and waiting for a machine to become available, not knowing when the laundry will be finished.

Download the “appWash by Miele” app and spend as little time in the laundry room as possible!

- ✓ See all available machines from your apartment
- ✓ Book online with your favourite payment option
- ✓ Receive notification when your laundry is ready
- ✓ Give feedback via the app

Happy appWashing!
